REQUEST FOR CORRECTED PATENT APPLICATION PUBLICATION UNDER
37 C.F.R. § 1.221(b)

On June 19, 2003, the U.S. Patent and Trademark Office published this application as Publication Number US 2003/0115628. The published application contains mistakes that are the fault of the Office and are, in Applicants' view, material. Attached hereto are copies of the relevant pages of the originally filed application and marked-up copies of the corresponding pages of the published application containing the mistakes.

A mistake is material when it affects the public's ability to appreciate the technical disclosure of the patent application publication or determine the scope of the provisional

rights that Applicants may seek to enforce upon issuance of a patent. See 37 C.F.R.

§ 1.221 (b). The mistakes listed below may affect the public's ability to appreciate the technical disclosure of the patent application publication or to determine the scope of the provisional rights.

First, Raymond Dedonder should be included in the list of inventors on the cover sheet of the published application. Applicants have submitted, concurrently, a Request for Corrected Filing Receipt and copy of the executed Declaration, signed by Raymond Dedonder and filed with the application, in regard to this correction.

Additionally, Applicants request that the following information be corrected in the text of the published application:

Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
